

Press release

February 2017

Location: Braunschweig

camos expansion also evident in Braunschweig

Stuttgart, 16 February 2017 – 2016 was another extremely successful year for camos Software und Beratung GmbH: incoming orders and sales rose by more than ten per cent against the previous year. To meet the growing demand for consulting services additional staff were taken on, with the company breaking through the 100-employee barrier in 2016. This positive development is not only apparent at the headquarters in Stuttgart, but also at the Braunschweig branch. The CPQ specialist (Configure, Price, Quote) opened the location in May 2014 in order to better serve its customers in Northern Germany. 'We started off with just two staff almost three years ago and now have six consultants here – with further recruitment already in the pipeline', explained branch manager Torsten Schmidt.
